GENERAL

§ 722.111 *Basis and purpose.* The provisions of §§ 722.111 to 722.130 are issued pursuant to the Agricultural Adjustment Act of 1938, as amended, and govern the establishment of acreage allotments and marketing quotas for the 1950 crop of cotton. The purpose of the regulations in this subpart is to apportion the national acreage allotment among the States and the State acreage allotments among the counties; to announce the State and county acreage reserves established by the State and county committees; and to provide the procedures for establishing farm acreage allotments and farm marketing quotas. In accordance with section 4 of the Administrative Procedure Act (60 Stat. 237), notice was published in the FEDERAL REGISTER on November 10, 1949 (14 F. R. 6793), that the Secretary of Agriculture had under consideration the apportionment of the national acreage allotment to States, the apportionment of State acreage allotments, and the issuance of regulations pertaining to the establishment of farm acreage allotments and marketing quotas for the 1950 crop of cotton. The data, views, and recommendations submitted by persons interested in such apportionments and regulations have been duly considered, within the limits prescribed by the Agricultural Adjustment Act of 1938, as amended, in connection with the preparation of §§ 722.111 to 722.130. Section 362 of the Agricultural Adjustment Act of 1938, as amended, provides that notice of the farm acreage allotment established for each farm shown by the records of the county committee to be entitled to such allotment shall insofar as practicable be mailed to the farm operator in sufficient time to be received prior to the date of the referendum conducted pursuant to section 343 of the said act. The Secretary of Agriculture has established December 15, 1949, as the date of the referendum (14 F. R. 6296), which is the final date under the said act for holding the referendum on the 1950 crop. Under these circumstances, compliance with the 30-day effective date provision of section 4 (c) of the Administrative Procedure Act is not possible; therefore, the provisions of §§ 722.111 to 722.130 shall become effective upon filing with the Director, Division of the Federal Register, in order that, insofar as practicable, acreage allotments may be established and official notices thereof mailed to farm operators prior to the date of the referendum.

STATE AND COUNTY ACREAGE ALLOTMENTS

§ 722.115 *Apportionment of national acreage allotment among States*—(a) *National and State acreage allotment bases.* The national acreage allotment of 21,000,000 acres proclaimed by the Secretary of Agriculture on October 13, 1949 (14 F. R. 6279) for the 1950 crop of cotton is apportioned among the States on the basis of a national acreage allotment base of 22,500,000 acres computed and adjusted as follows:

(1) *National acreage allotment base.* The average acreage planted or regarded as planted to cotton in the States for the years 1945, 1946, 1947, and 1948 (except

that in the case of any State having a 1948 actual planted acreage of 1,000,000 acres and less than 50 percent of the 1943 cotton allotment, the period of years is 1944 to 1948, inclusive) constitutes the national base (hereinafter referred to as the "initial acreage allotment base" for the United States and for the States). The State acreage allotment bases, the State acreage allotments and the State acreage reserves are shown in the attached Table I. To the initial acreage allotment base so established (column (2), Table I) is added or subtracted the amounts as determined and explained herein:

(i) The estimated additional acreage for each State required for small-farm allotments under section 344 (f) (1) of the act (Column (3), Table I). The estimate of such acreage for each State is the additional acreage which was or would have been required from the State reserve provided in subsections (g) (1) and (2) of section 344 of the Agricultural Adjustment Act of 1938, as amended (52 Stat. 203) prior to the enactment of Public Law 272, 81st Cong. (63 Stat. 670), to establish small-farm allotments for the 1942 crop of cotton under section 344 (d) (1) of the said act (52 Stat. 58) prior to the enactment of the said Public Law 272.

(ii) The additional acreage required to provide each State an acreage allotment base of not less than the larger of (*a*) 95 percent of the average acreage actually planted to cotton in the State during the years 1947 and 1948 or (*b*) 85 percent of the acreage actually planted to cotton in the State in 1948 (column (4), Table I).

(iii) The acreage deduction from the initial acreage allotment base to provide a national acreage allotment base of 22,500,000 acres. The total resulting by adding to the initial national acreage allotment base (column (2), Table I), the national totals of the acreages added under subdivisions (i) and (ii) of this subparagraph (columns (3) and (4), Table I) is 22,775,480 acres. The difference of 275,480 acres resulting by subtracting 22,500,000 acres from 22,775,480 acres is deducted pro rata on the basis of the initial acreage allotment bases (column (2), Table I) for States for which the sum of the acreages in the State acreage allotment base plus the acreage added under subdivision (i) of this subparagraph (columns (2) plus (3), Table I) exceeds the larger of (*a*) 95 percent of the average acreage actually planted to cotton during the years 1947 and 1948 or (*b*) 85 percent of the acreage actually planted to cotton in the State in 1948. In applying this pro rata deduction no State acreage allotment base is caused to be reduced below the larger of 95 percent of the average acreage actually planted to cotton in the State during the years 1947 and 1948 or 85 percent of the acreage actually planted to cotton in the State in 1948. The acreage resulting from such pro rata deductions for each State are shown in column (5), Table I.

(2) *State acreage allotment base.* The State acreage allotment base is obtained by subtracting the acreage, if any, obtained under subdivision (iii) of subparagraph (1) of this paragraph (column (5), Table I) from the sum of the acreages in the initial State acreage allotment base and the acreages added under subdivisions (i) and (ii) of subparagraph (1) of this paragraph (sum of columns (2), (3) and (4), Table I). The resulting State acreage allotment bases are shown in column (6), Table I.

(b) *State acreage allotment*—(1) *Minimum State acreage allotment.* A minimum State acreage allotment is determined for each applicable State at not less than the smaller of (i) 4,000 acres or (ii) the highest acreage actually planted to cotton during the three years 1946, 1947, and 1948. Such minimum acreage allotment applied only to Nevada for which an allotment of 110 acres was established which is the same as the acreage actually planted to cotton in that State in 1948.

(2) *Allotments for other States.* A national acreage allotment apportionment factor is computed by dividing (i) the national acreage allotment of 21,000,000 acres less 110 acres which is the minimum State allotment for Nevada by (ii) the national acreage allotment base of 22,500,000 acres less 94 acres which is the acreage allotment base for Nevada. Such factor is computed to be 0.9333323. The State acreage allotment for each State other than for Nevada was obtained by multiplying the State acreage allotment base (column (6), Table I) by the national acreage allotment apportionment factor. The State acreage allotment for each State is shown in column (7), Table I.

§ 722.116 *Apportionment of State acreage allotment*—(a) *Computed county acreage allotment.* The State acreage allotment for the 1950 crop of cotton, less the sum of:

(1) The State acreage resulting by multiplying the acreage added to the State acreage allotment base pursuant to subparagraph (1) (i) of § 722.115 (a), (column (3), Table I) by the national apportionment factor of 0.9333323, is set aside for establishing allotments for farms in accordance with § 722.118. The amount of such acreage for each State is shown in item b (2) of the attached Table II which shows county acreage allotments, county acreage reserves, State acreage reserves for adjustments in small-farm allotments and for establishing acreage allotments for new cotton new farms,

(2) The State acreage reserve established by the State committee (column (8), Table I) to be required to make adjustments in county acreage allotments for trends in acreage, for counties adversely affected by abnormal conditions affecting plantings, or for small or new farms,

is apportioned to counties on the same basis as to years and conditions as were applicable to the apportionment of the national acreage allotment to the State as provided in § 722.115. Such county acreage allotments are hereinafter referred to as "computed county acreage allotments".

(b) *Base period for apportioning State allotment to counties.* The base periods applicable in apportioning the State acreage allotments to counties are as follows:

(1) For Arkansas, Missouri, and Texas, the State acreage allotment, less the amounts set aside under subparagraphs (1) and (2) of paragraph (a) of this section, is apportioned among counties on the basis of 95 percent of the average acreage actually planted to cotton during the years 1947 and 1948.

(2) For California and New Mexico the State acreage allotment, less the amounts set aside under subparagraphs (1) and (2) of paragraph (a) of this section, is apportioned among counties on the basis of 85 percent of the acreage actually planted to cotton in 1948.

(3) For Oklahoma, the State acreage allotment less the amounts set aside under subparagraphs (1) and (2) of paragraph (a) of this section, is apportioned among the counties on the basis of the average acreage planted or regarded as planted to cotton during the five years, 1944–1948, inclusive.

(4) For Nevada, the State acreage allotment is apportioned to Nye County in that State.

(5) For the remaining States, the State acreage allotment, less the amounts set aside under subparagraphs (1) and (2) of paragraph (a) of this section, is apportioned among the counties on the basis of the average acreage planted or regarded as planted to cotton during the four years, 1945–48, inclusive.

(c) *State acreage reserve.* The State committee shall use the State acreage reserve (column (8), Table I) as follows:

(1) *To make adjustments in county acreage allotments for trends in the acreage actually planted to cotton.* The State committee in each applicable State shall develop a formula to adjust computed county acreage allotments for trends in cotton acreage which shall be uniformly applied to each county in the State. No such formula shall include the acreage planted to cotton in 1949.

(2) *To adjust computed county acreage allotments for counties adversely affected by abnormal conditions affecting plantings of cotton.* The State committee shall consider adjustments in the computed county acreage allotments for counties adversely affected by abnormal conditions affecting plantings during the base period used in apportioning the State acreage allotment to counties as set forth under paragraphs (a) and (b) of this section. The State committee shall examine the acreage actually planted to cotton for each year(s) in such base period to determine whether the acreage planted was adversely affected by abnormal conditions, and shall compare the acreage for such year (i) with the usual acreage actually planted to cotton in the county and (ii) with the relationship of the acreage actually planted to cotton to the usual acreage actually planted to cotton in adjoining counties in the area. If the State committee determines that the county acreage actually planted to cotton during any year in such base period was adversely affected by abnormal conditions affecting plantings, the State committee shall make an adjustment in the county acreage allotment from the State

acreage reserve set aside for this purpose. Where the acreage actually planted to cotton is adversely affected by the same abnormal conditions in more than one county, the State committee shall use a uniform basis for adjusting the computed acreage allotments for the counties so affected by such conditions.

(3) *To make apportionments to counties for adjustments in acreage allotments for small farms.* The State committee shall determine the acreage required from the State acreage reserve to supplement that part of the county acreage reserve established as provided for in subparagraphs (1) and (5) of paragraph (b) of § 722.117, to adjust farm acreage allotments established under paragraph (a), § 722.117 at 15 acres or less. The acreage so apportioned to any county from the State acreage reserve shall be used by the county committee only for such purpose.

(4) *To supplement the State acreage set aside to establish acreage allotments for small farms as provided for in § 722.118.* If the State committee determines that the acreage established under subparagraph (1) of paragraph (a) of this section (column (3), Table I) for establishing farm acreage allotments of five acres or less, pursuant to § 722.118 is insufficient for such purpose, the State committee shall set aside from the State acreage reserve an acreage, not to exceed the amount available in the State acreage reserve, sufficient to establish allotments for such farms at the level provided for in § 722.118. Such acreage, including the amount established under subparagraph (1) of paragraph (a) of this section, shall be apportioned to counties on the basis of the actual needs for additional acreage allotments to such farms under the provisions of § 722.118 and used only for such purpose.

(5) *To establish 1950 acreage allotments for new cotton farms.* The State committee shall determine whether acreage allotments for new cotton farms shall be established from (i) the State acreage reserve, or (ii) the county acreage reserve, or (iii) a combination of both the State and county acreage reserves. In States where new areas have been brought into cotton production in 1949, or will be brought into cotton production in 1950, the State committee shall consider establishing an acreage from the State acreage reserve to supplement the acreage established by the county committee from the county acreage reserve for establishing acreage allotments for new cotton farms. The acreage established from the State acreage reserve to supplement the county acreage shall be sufficient to provide for establishing fair and reasonable acreage allotments for new cotton farms in such areas on the basis of the factors set forth in the regulations in this subpart for establishing acreage allotments for such farms. Where the State committee determines that the needs for acreage to establish acreage allotments for new cotton farms is generally uniform throughout the State, the State and county committees are authorized to determine whether all the acreage required to establish acreage allotments for new cotton farms shall be provided from the State acreage reserve or the county acreage reserve, or from a combination of both State and county acreage reserves. If the State committee provides an acreage from the State acreage reserve to establish acreage allotments for new cotton farms, the State committee shall take into consideration the acreage requirements determined for such farms from the county surveys as provided for in subparagraph (3) of paragraph (b) of § 722.117. The acreage so apportioned to any county from the State acreage reserve shall be used by the county committee only for such purpose.

(d) *Availability of data for inspection.* The following shall be on file and shall be available in the office of the State committee for examination by any interested cotton producer:

(1) The amount of the State acreage reserve;

(2) The formula and data developed and used under subparagraphs (1) and (2) of paragraph (c) of this section; and

(3) The total acreage set aside from the State acreage reserve, and the data used in establishing such acreages, for the purposes set forth in subparagraphs (3), (4), and (5) of paragraph (c) of this section.

(e) *County acreage allotment.* The county acreage allotment shall be the sum of (1) the computed county acreage allotment determined under paragraph (a) of this section plus (2) the total of the acreage adjustments determined under subparagraphs (1) and (2) of paragraph (c) of this section. The county acreage allotments so determined by the State committees are shown in column (2), Table II.

(f) *Administrative areas.* If in any county the county committee, with the approval of the State committee, determines that one or more areas which, because of the difference in types, kinds, and productivity of the soil or other conditions should be treated separately in order to prevent discrimination, each such area shall, in accordance with the instructions issued by the Assistant Administrator, be designated by the county committee as an administrative area. The computed county acreage allotment determined under paragraph (a) of this section shall be apportioned to administrative areas on the same basis as that used in apportioning the State acreage allotment to counties.

The acreage allotments so computed for administrative areas shall be adjusted for trends in acreage and for abnormal conditions adversely affecting plantings in such areas in accordance with the regulations prescribed for adjusting county acreage allotments in subparagraphs (1) and (2) of paragraph (b) of this section.

ESTABLISHMENT OF FARM ACREAGE ALLOTMENTS

§ 722.117 *Apportionment of county acreage allotment*—(a) *Acreage allotments to old cotton farms on the basis of a prescribed county cropland factor.* That portion of the county acreage allotment to be allotted to farms on the basis of a prescribed cropland factor shall be determined and apportioned to old cotton farms as follows:

(1) *Deduction of county acreage reserve.* Before acreage allotments shall be established for farms under this paragraph, the county committee shall deduct from the county acreage allotment the acreage, which shall not exceed 15 percent of the county acreage allotment, that the committee sets aside as the "county acreage reserve" under paragraph (b) of this section.

(2) *Determination of adjusted cropland.* The county committee shall determine an adjusted cropland acreage for each old cotton farm by subtracting from the acreage of land on the farm which in 1949 was tilled annually or in regular rotation the sum of the following acreages:

(i) The acreage planted in 1949 to sugarcane for sugar and sugar beets for sugar;

(ii) The 1949 acreage allotment for flue-cured, burley, dark air-cured, and fire-cured tobacco and the 1949 acreage planted to tobacco on farms for which allotments for tobacco were not established in 1949;

(iii) The 1949 acreage allotment for peanuts or the 1949 acreage of peanuts picked and threshed for farms for which a 1949 peanut acreage allotment was not determined;

(iv) The 1950 acreage allotment for wheat, excluding the wheat acreage used on the farm for other than feeding to livestock for market;

(v) The acreage planted to rice in 1949 plus the acreage of other rice land on the farm for which water is available;

(vi) The acreage of lands devoted in 1949 primarily to orchards or vineyards; and

(vii) In irrigated areas designated by the State committee the acreage of cropland for which irrigation water is not available for the production of irrigated crops during the cotton producing season (seeding to maturity).

(3) *Determination of county cropland factor.* The initial county cropland factor shall be computed by dividing (i) the county acreage allotment remaining after deducting the county acreage reserve as provided in subparagraph (1) of this paragraph by (ii) the total of the adjusting cropland acreages on all old cotton farms in the county. Second and additional cropland factors shall be determined, if necessary, by dividing (i) the available county acreage allotment remaining after maximum indicated farm acreage allotments have been established for applicable farms by the application of the preceding county cropland factor by (ii) the total of the adjusted cropland acreages for farms in the county for which maximum indicated farm acreage allotments were not established by the application of the preceding county cropland factor. The last county cropland factor computed and applied shall be referred to herein as the "final county cropland factor".

(4) *Indicated farm acreage allotment.* An indicated acreage allotment shall be computed for each old cotton farm by multiplying the adjusted cropland for

each such farm by the county cropland factor.

(5) *Maximum indicated farm acreage allotment.* The maximum acreage allotment for any farm determined under subparagraph (4) of this paragraph shall not exceed the largest acreage planted or regarded as planted to cotton on the farm in 1946, 1947 or 1948.

(b) *County acreage reserve.* The county committee may establish a county acreage reserve of not in excess of 15 percent of the county acreage allotment which shall be used to adjust indicated farm acreage allotments determined under paragraph (a) of this section and to establish acreage allotments for new cotton farms. The final county acreage reserve established by the applicable county committee is the acreage in column (3), Table II, plus the acreage not allotted in the application of the final county cropland factor as provided in paragraph (a) of this section because of the maximum indicated farm acreage allotment provision in subparagraph (5) of paragraph (a) of this section, which total acreage shall not exceed 15 percent of the county acreage allotment. The county acreage reserve so established shall be used by the county committee as follows:

(1) *Adjustments in indicated farm acreage allotments of 5 to 15 acres.* Not less than 20 percent of the final county acreage reserve shall, to the extent required, be used by the county committee to adjust indicated farm acreage allotments of 5 to 15 acres, inclusively, as determined in paragraph (a) of this section. Such adjustments shall be made so as to establish acreage allotments which are fair and reasonable in relation to the acreage allotments established for other similar farms in the community, taking into consideration for the farm the land, labor, and equipment available for the production of cotton, crop-rotation practices, the soil and other physical facilities affecting the production of cotton. The county committee shall not make adjustments so as to cause an acreage allotment to be established for any such farm (i) in excess of the acreage which could be planted on the farm in 1950 consistent with sound crop-rotation practices followed in the community, (ii) in excess of the acreage which can be farmed with the labor and equipment currently or normally available on the farm, or (iii) which would cause cotton to be planted on land unsuited to the production of cotton.

(2) *Additional acreage for establishing acreage allotments for small farms.* If the acreage apportioned to the county by the State committee pursuant to subparagraph (4) of paragraph (c) of § 722.116 is insufficient to establish acreage allotments for small farms at the levels provided in § 722.118, the county committee shall use for this purpose any part of the county acreage reserve remaining after the total acreage required from the county acreage reserve for making adjustments in farm acreage allotments under subparagraph (1) of this paragraph has been established.

(3) *Acreage allotments for new cotton farms*—(i) *Determination of county acreage for establishing acreage allotments for new cotton farms.* The county committee with the assistance of the community committee shall determine from county office records and other available sources of information (*a*) the number of farms on which cotton was planted in 1949 but on which there was no acreage planted or regarded as planted to cotton in 1946, 1947, or 1948 and (*b*) in accordance with the provisions of subparagraph (2) of paragraph (a) of this section the estimated adjusted cropland acreage for such farms in the county. The county and community committees shall also estimate (*a*) the number of farms on which cotton will be planted in 1950 but on which there was no acreage planted or regarded as planted to cotton in 1946, 1947, 1948, or 1949 and (*b*) the adjusted cropland acreage for such farms in the county. The data obtained from such surveys shall be used by the State and county committees as a basis for establishing the acreage that will be required for establishing acreage allotments for new cotton farms. The acreage so established shall not exceed 75 percent of the acreage determined by multiplying the county cropland factor, which shall be estimated where necessary, by the total estimated adjusted cropland acreage on new cotton farms in the county. In determining the acreage to be set aside from the county acreage reserve for establishing acreage allotments for new cotton farms, the county committee shall take into consideration the acreage, if any, to be made available for establishing acreage allotments for new cotton farms from the State acreage reserve pursuant to paragraph (c) (5) of § 722.116.

(ii) *Establishment of acreage allotments for new cotton farms.* The operator of each new cotton farm shall file with the county committee a written application requesting a cotton acreage allotment for such farm by not later than the closing date established by the State committee which shall not be earlier than January 15, 1950. The county committee shall determine the eligibility of each applicant's farm for a cotton acreage allotment. If the applicant's farm is eligible for a cotton acreage allotment, such allotment shall be established by the committee on the basis of land, labor, and equipment available for production of cotton, crop-rotation practices, the soil and other physical facilities affecting the production of cotton. The acreage allotment so determined for any such farm shall not exceed the acreage allotment established for old cotton farms in the county which are similar with respect to such factors. The acreage allotments for new cotton farms shall be subject to review and approval by the State committee.

(4) *Adjustments in indicated acreage allotments for other farms.* The remainder of the acreage in the county acreage reserve, after meeting the requirements under subparagraphs (1), (2), and (3) of this paragraph shall be used by the county committee to adjust indicated acreage allotments for farms which are less than 5 acreas or more than 15 acres. Such adjustments in the indicated acreage allotments for such farms shall be based on the land, labor, and equipment available for the production of cotton, crop-rotation practices, the soil and other physical facilities affecting the production of cotton, and abnormal conditions of production. The county committee shall not make adjustments so as to cause an acreage allotment to be established for any such farm (i) in excess of the acreage which could be planted on the farm in 1950 consistent with sound crop-rotation practices followed in the community, (ii) in excess of the acreage which can be farmed with the labor and equipment currently or normally available on the farm, or (iii) which would cause cotton to be planted on land unsuited for the production of such crop.

(c) *Availability of reserves for inspection by interested cotton producers.* The amount of the county acreage reserve and the distribution to the uses provided for in paragraph (b) of this section shall be available in the office of the county committee for examination by any interested cotton producer.

§ 722.118 *Minimum acreage allotments for small cotton farms.* The indicated acreage allotment determined under paragraph (a), § 722.117 shall, if necessary, be increased to the smaller of (a) five acres, or (b) the highest acreage planted or regarded as planted to cotton on the farm in 1946, 1947 or 1948. The additional acreage required for such increases shall be allotted to the applicable farms from the acreage apportioned to the county by the State committee pursuant to paragraph (c) (4), § 722.116 and, if needed, from the county acreage reserve pursuant to paragraph (b) (2) of § 722.117.

§ 722.119 *Allotments for special farms*—(a) *Allotments for farms returned to agricultural production.* The owner or operator of any cotton farm in an area acquired in 1940 or thereafter for nonfarming purposes by the United States or any State or agency thereof which has been returned to agricultural production and which is not eligible under the regulations in this subpart for an acreage allotment as an old cotton farm, may make application to the county committee for a cotton acreage allotment for such farm within the prescribed closing date established by the State committee which shall not be later than March 1, 1950. No such owner or operator shall be eligible for an acreage allotment under this paragraph unless it is established to the satisfaction of the county committee that such person was the owner or operator of a cotton farm in the area at the time it was acquired by the United States or any State or agency thereof or in another area so acquired. The acreage allotment established for any such farm shall compare with the acreage allotments established for other farms in the same area which are similar, taking into consideration the acreage allotment, if any, last established for such farm, land, labor, and equipment available for the production of cotton, crop-rotation practices, and the soil and

other physical facilities affecting the production of cotton.

(b) *Allotments for farms owned or operated by persons from whom cotton farms were acquired.* The county committee shall establish an acreage allotment or consider an adjustment in the acreage allotment determined under § 722.117 for any farm within the State owned or operated by a person from whom a cotton farm was acquired in the State in 1940 or thereafter for governmental or other public purposes. The acreage allotment established for any such farm shall compare with the acreage allotments established for other farms in the same area which are similar, taking into consideration the acreage allotment, if any, of the farm so acquired from the owner or operator, the land, labor, and equipment available for the production of cotton, crop-rotation practices, and the soil and other physical facilities affecting the production of cotton: *Provided*, That no person shall be entitled to receive an acreage allotment under both this paragraph and paragraph (a) of this section.

(c) *Cotton farm.* For the purposes of paragraphs (a) and (b) of this section, "a cotton farm" means any farm on which there was an acreage planted or regarded as planted to cotton during any of the three years immediately preceding the year in which the farm was acquired by the United States or any State or any agency thereof or for any public purpose.

(d) *Acreage allotted in addition to county and State acreage allotments.* Except to the extent that the production of any farm for which an acreage allotment is established under paragraph (a) and (b) of this section has contributed to the county and State allotments, the additional acreage allotted under paragraphs (a) and (b) of this section shall be in addition to the acreage allotments otherwise established for the county and State under the applicable provisions of the regulations in this subpart and the production of the additional acreage so allotted shall be in addition to the national marketing quota.

LONG STAPLE COTTON

§ 722.120 *Exemption of long staple cotton*—(a) *Cotton stapling one and one-half inches or more.* Cotton produced from the 1950 crop which staples one and one-half inches or more in length and which is ginned on a roller-type gin shall be exempted from the provisions of the regulations in this subpart with respect to marketing quotas for the 1950 crop of cotton regardless of where the cotton is produced in the United States or the variety of the cotton from which such lint was produced.

(b) *Long staple variety*—(1) *American Egyptian cotton.* All pure strains of American Egyptian cotton produced from the 1950 crop in those areas of Arizona and New Mexico and in those areas of Ector, El Paso, Hudspeth, Jeff Davis, Loving, Pecos, Presidio, Reeves and Ward counties of Texas in which cotton is produced with irrigation throughout the growing season shall be exempted from all provisions of the regulations in this subpart with respect to marketing quotas for the 1950 crop provided such cotton is ginned on a roller-type gin, except that such exemption shall not apply to any farm unless the approval of the county committee for the planting of such cotton on any farm is obtained in advance of planting time.

The county committee shall (i) require the farm operator to furnish an approved purity test certificate or approved State certification tags covering the American Egyptian seed to be planted showing that such seed is of pure strain, and (ii) require the farm operator to show that roller-type gin facilities are available for the ginning of such cotton and to satisfy the committee that such facilities will be used in the ginning of such cotton.

(2) *Sea Island, including Sealand, cotton.* All Sea Island cotton, including Sealand cotton, produced from the 1950 crop in Alachua, Lake, Marion, Columbia, Orange, Seminole, Union, Bradford, Jefferson and Suwannee Counties, Florida, and in Lanier, Cook, Atkinson, and Berrien Counties, Georgia, shall be exempted from all provisions of the regulations in this subpart with respect to marketing quotas for the 1950 crop provided such cotton is ginned on a roller-type gin, except that such exemption shall not apply to any farm unless the approval of the county committee for the planting of such cotton on any farm is obtained in advance of planting time.

The county committee shall (i) require the farm operator to furnish an approved purity test certificate or approved State certification tags covering the Sea Island and Sealand seed to be planted showing that such seed is of pure strain, and (ii) require the farm operator to show that roller-type gin facilities are available for the ginning of such cotton and to satisfy the committee that such facilities will be used in the ginning of such cotton.

(3) *Long staple cotton acreage.* All acreage devoted to the production of American Egyptian cotton and Sea Island, including Sealand, cotton during the period of years 1945–48, inclusive, in the areas designated under subparagraphs (1) or (2) of this paragraph, shall be excluded from the cotton acreage for farms, counties and States for the purposes of determining 1950 cotton acreage allotments.

FARM MARKETING QUOTA AND FARM MARKETING EXCESS

§ 722.121 *Notice of farm acreage allotment and marketing quota.* Immediately upon the establishment of farm acreage allotments for farms in a county or other local administrative area, the county committee shall mail to the operator of each farm a written notice of the farm acreage allotment and marketing quota for the farm. The county committee shall also mail to the operator of each new cotton farm for which it determines that no farm acreage allotment and marketing quota will be established a similar written notice showing "none" as the acreage allotment and marketing quota established for the farm. The notice shall contain at or near the top thereof the following statement: "To all persons who as operator, landlord, tenant, or sharecropper are interested in the farm for which this acreage allotment and marketing quota are established". Notice so given shall constitute notice to all such persons. Such notice shall also contain a brief statement of the procedure whereby application for review of the marketing quota may be made under section 363 of the act. A copy of each notice, containing a notation thereon of the date of mailing the notice to the operator of the farm, shall be kept among the permanent records of the county committee, and upon request a copy thereof, duly certified as true and correct shall be furnished without charge to any person who as operator, landlord, tenant, or sharecropper is interested in the cotton produced in 1950 on the farm for which the notice is given. Insofar as practicable, the notice for each old cotton farm shall be prepared and mailed to the operator so as to be received prior to December 15, 1949, the date on which the referendum to determine whether cotton farmers favor or oppose marketing quotas for the 1950 crop will be held.

§ 722.122 *Amount of the farm marketing quota.* The farm marketing quota for any farm for the 1950 crop of cotton shall be the actual production of lint cotton for the acreage planted to cotton on the farm less the farm marketing excess.

§ 722.123 *Amount of the farm marketing excess*—(a) *Where the acreage planted to cotton is determined.* The farm marketing excess for the 1950 crop of cotton shall be the normal production of the acreage of cotton on the farm in excess of the farm acreage allotment. Where, upon application of the farm operator in accordance with regulations to be issued under this part by the Secretary of Agriculture, it is established by the farm operator that the normal production of the excess acreage is larger than the amount by which the actual production of cotton in 1950 on the farm exceeds the normal production of the farm acreage allotment, the farm marketing excess shall be adjusted downward to the smaller amount.

(b) *Where the acreage planted to cotton is not determined.* Whenever the determination of the acreage planted to cotton in excess of the farm acreage allotment is prevented by the farm operator, the farm marketing excess shall be the total number of pounds of cotton produced in 1950 on the farm. In the event the farm operator establishes, in accordance with regulations to be issued under this Part by the Secretary of Agriculture, the total number of pounds of cotton produced in 1950 on the farm, the farm marketing excess shall be the number of pounds of cotton produced in 1950 on the farm in excess of the normal production of the farm acreage allotment.

§ 722.124 *Publication of farm acreage allotments and marketing quotas.* One copy of each notice of the farm acreage allotment and marketing quota for farms in a county shall be placed in binders or folders, or in lieu thereof a listing of such allotments shall be prepared, and such notices or listing shall

be kept freely available in the office of the county committee for public inspection for a period of not less than thirty calendar days. At the end of such period the copies of the notices or the listing shall be filed in the office of the county committee and remain readily available for further public inspection. If the county is divided into administrative areas, separate binders, folders, or listings shall be prepared and made available for inspection for each administrative area.

§ 722.125 *Successors - in - interest.* Any person who succeeds to the interest of a producer in a farm, or in a cotton crop, or in cotton for which a farm marketing quota and farm marketing excess were established, shall, to the same extent as his predecessor, be entitled to all the rights and privileges incident to such marketing quota and marketing excess and be subject to the restrictions on the marketing of cotton.

§ 722.126 *Marketing quotas not transferable.* A farm marketing quota is established for a farm and may not be assigned or otherwise transferred in whole or in part to any other farm.

MISCELLANEOUS PROVISIONS

§ 722.127 *Acreage planted to cotton—*(a) *Adjustment of acreage planted in excess of farm acreage allotment.* If the acreage determined to be planted to cotton on a farm in 1950 is in excess of the farm acreage allotment, the farm operator may, not later than a date established under instructions issued by the Assistant Administrator, adjust such planted acreage to the farm acreage allotment. The date established under such instructions shall afford farm operators a reasonable time for making such adjustments.

(b) *Underplanting the farm acreage allotment.* For any farm on which the acreage planted to cotton in 1950 is less than the farm acreage allotment for the 1950 crop of cotton by not more than the larger of 10 percent of the allotment or one acre, an acreage equal to the farm acreage allotment shall be deemed to be the acreage planted to cotton on the farm, and the additional acreage added to the cotton acreage history for the farm shall be added to the cotton acreage history for the county and State.

(c) *No credit for overplanting the farm acreage allotment.* Any acreage planted to cotton in 1950 in excess of the farm acreage allotment for the 1950 crop of cotton shall not be taken into account in establishing State, county, and farm acreage allotments for the 1951 and subsequent crops of cotton.

§ 722.128 *Availability of records.* The State and county committees shall make available for inspection by owners or operators of farms receiving cotton acreage allotments all records pertaining to cotton acreage allotments and marketing quotas.

§ 722.129 *Approval of county committee determinations.* The State committee will review all acreage allotments and may correct or require correction of any determinations made under §§ 722.117 to 722.127. All acreage allotments shall be approved by the State committee and no official notice of acreage allotment and marketing quota shall be mailed to a farm operator until such allotment has been approved by the State committee.

REVIEW OF QUOTAS

§ 722.130 *Review of quotas—*(a) *Review committees.* Any producer who is dissatisfied with the farm marketing quota established for his farm, or in the case of a new cotton farm, with the action of the county committee in refusing to establish a farm marketing quota for such farm, may, by making application within 15 days after the mailing directly to him of the notice provided for in § 722.121, have such quota or determination reviewed by a local review committee composed of three farmers appointed by the Secretary of Agriculture. The review committee shall, upon proper application, review the action of the county committee. The review committee in determining any farm marketing quota shall, to the same extent as the county committee, be limited to the establishment of a farm marketing quota in an amount which, under the act and regulations, should have been established. Unless such application is made within 15 days, the original determination of the farm marketing quota shall be final. All applications for review shall be made in accordance with the Marketing Quota Review Regulations issued by the Secretary of Agriculture (12 F. R. 1383, 13 F. R. 433, F. R. 5185).

(b) *Court review.* If the producer is dissatisfied with the determination of the review committee, he may, within 15 days after notice of such determination is mailed to him by registered mail, institute proceedings against the review committee to have the determination of the review committee reviewed by a court in accordance with section 365 of the act.

Done at Washington, D. C. this 2d day of December, 1949. Witness my hand and the seal of the Department of Agriculture.

[SEAL] A. J. LOVELAND,
Acting Secretary of Agriculture.

[1] 1945–48 average acreage planted or regarded as planted to cotton, except for Oklahoma such average is for the 5 year, 1944–48, period.

[2] Acreage allotted or which would have been allotted had the 4 percent State acreage reserve been sufficient under subsec. 344 (g) (1) and (2) of the 1938 Agricultural Adjustment Act, as amended, prior to the enactment of Public Law 272, 81st Cong., for establishing allotments under subsec. 344 (d) (1) of such Act.

[3] Larger of 95 percent of the 1947–48 average acreage actually planted to cotton or 85 percent of the acreage actually planted to cotton in 1948 less the sum of the acreages in columns (2) and (3).

[4] Since the United States totals of columns (2), (3), and (4) equals 22,775,480 acres, 275,480 acres were deducted to provide a national acreage allotment base of 22,500,000 acres. Such amount was deducted pro rata on the basis of the initial State acreage allotment bases in column (2) for each State for which the total of columns (2) and (3) exceeds the larger of 95 percent of the 1947–48 average acreage actually planted to cotton or 85 percent of the acreage actually planted to cotton in 1948. On first trial, it was determined that a straight pro rata deduction based on the initial State acreage allotment bases in column (2) would cause the State acreage allotment base for Texas to be less than 95 percent of the 1947–48 average acreage actually planted to cotton. Consequently, the deduction in column (5) was limited to 119,654 acres for that State, thereby causing the State acreage allotment base in column (6) to equal 95 percent of such 1947–48 average acreage. The remaining acreage of 155,826 acres (275,480–119,654) was deducted pro rata from the initial base acreages for other applicable States as follows:

(a) A total was obtained of the initial acreage allotment bases in column (2) for Alabama, Arizona, Florida, Georgia, Illinois, Kansas, Kentucky, Louisiana, Mississippi, North Carolina, Oklahoma, South Carolina, Tennessee and Virginia. Such total equals 10,789,788 acres.

(b) A deduction factor of 1.44420 percent was obtained by dividing 155,826 by 10,789,788.

(c) The deduction factor was applied to the initial acreage allotment base in column (2) for each State listed in item (a). Such product is shown in column (5) for each of the applicable States.

[4] Sum of column (2), (3) and (4) minus column (5).

[5] Pursuant to section 344 (k) of the act, a minimum 1950 State acreage allotment for Nevada of 110 acres equaling the acreage actually planted to cotton in that State in 1948, which was the largest for the three years, 1946, 1947, and 1948, was established for the State. The remainder of the 1950 national acreage allotment was apportioned to the remainder of the States as follows:

(a) An apportionment factor of 0.9333323 was obtained by dividing 20,999,890 (21,000,000–101) by 22,499,906 (22,500,000—94, which is the State acreage allotment base in column (6) for Nevada).

(b) The apportionment factor was applied to the State acreage allotment base in column (6) for each remaining State. The product is shown in column (7) as the 1950 State acreage allotment.

TITLE 21—FOOD AND DRUGS

Chapter I—Food and Drug Administration, Federal Security Agency

PART 141—TESTS AND METHODS OF ASSAY FOR ANTIBIOTIC AND ANTIBIOTIC-CONTAINING DRUGS

PART 146—CERTIFICATION OF BATCHES OF ANTIBIOTIC AND ANTIBIOTIC-CONTAINING DRUGS

MISCELLANEOUS AMENDMENTS

By virtue of the authority vested in the Federal Security Administrator by the provisions of section 507 of the Federal Food, Drug, and Cosmetic Act (52 Stat. 1040, 1055, as amended by 59 Stat. 463, 61 Stat. 11, and Public Law 164, 81st Cong.; 21 U. S. C. 357), the regulations for tests and methods of assay for antibiotic and antibiotic-containing drugs (21 CFR 141.1 et seq.; 14 F. R. 5006) and certification of batches of antibiotic and antibiotic-containing drugs (21 CFR 146.1 et seq.; 14 F. R. 5006) are amended as indicated below:

1. In § 141.201 *Aureomycin hydrochloride*, paragraph (e) is amended to read as follows:

(e) *Histamine.* Proceed as directed in § 141.105, using as a test dose 0.6 ml. of a solution containing 5 mg. per milliliter prepared with the diluent recommended by the manufacturer in his labeling for the drug.

2a. In § 141.301 *Chloramphenicol*, paragraph (c) *Toxicity* is amended by adding the following new sentence at the end of the paragraph: "Use physiological salt solution as the diluent."

b. Section 141.301 is further amended by adding the following sentence at the end of paragraph (d) *Pyrogens*: "Use physiological salt solution as the diluent."

3. Part 141 is amended by adding the following new section:

§ 141.406 *Bacitracin - tyrothricin troches*—(a) *Potency.* Proceed as directed in § 141.403 (a). Its content of bacitracin is satisfactory if it contains not less than 85% of the number of units per troche it is represented to contain.

(b) *Moisture.* Proceed as directed in § 141.5 (a).

4. In § 146.402 *Bacitracin ointment*, the first and second sentences of paragraph (b) *Packaging* are amended to read as follows: "Bacitracin ointment shall be packaged in collapsible tubes, which shall be well-closed containers as defined by the U. S. P. and which shall not be larger than the 2-ounce size, except if it is labeled solely for hospital use; but in no case shall it be packaged in containers other than collapsible tubes if it is represented for ophthalmic use, and such tubes shall not be larger than the ⅛-ounce size. If it is labeled solely for hospital use and it is packaged in immediate containers of glass, such containers shall meet the test for tight containers as defined by the U. S. P."

5. Part 146 is amended by adding the following new section:

§ 146.406 *Bacitracin-tyrothricin troches.* (a) Bacitracin-tyrothricin troches conform to all requirements prescribed by § 146.404 for bacitracin troches and are subject to all procedures prescribed by § 146.404 for bacitracin troches except that:

(1) Each troche contains not less than 50 units of bacitracin.

(2) Each troche contains not less than 1 mg. of tyrothricin.

(3) Each troche may be tableted with or without ethyl aminobenzoate.

(b) In lieu of the directions prescribed for bacitracin troches by § 146.404 (c) (1) (ii) each package shall bear on the outside wrapper or container and the

immediate container the number of units of bacitracin and the number of milligrams of tyrothricin and ethyl aminobenzoate in each troche of the batch.

This order, which provides for tests and methods of assay and for certification of bacitracin-tyrothricin troches and for modification of the tests and methods of assay for aureomycin hydrochloride and chloramphenicol and the packaging requirements for bacitracin ointment shall become effective upon publication in the FEDERAL REGISTER, since both the public and the affected industries will benefit by the earliest effective date, and I so find.

Notice and public procedure are not necessary prerequisites to the promulgation of this order and would be contrary to public interest, and I so find, since it was drawn in collaboration with interested members of the affected industries and since it would be against public interest to delay the marketing of bacitracin-tyrothricin troches; not to modify the tests and methods of assay for aureomycin hydrochloride and chloramphenicol; and not to modify the packaging requirements for bacitracin ointment.

(Sec. 701 (a), 52 Stat. 1055; 21 U. S. C. 371 (a). Interpret or apply sec. 507, 59 Stat. 463, as amended; 21 U. S. C. and Sup., 357)

Dated: December 6, 1949.

Acting Administrator.

TITLE 26—INTERNAL REVENUE

Chapter I—Bureau of Internal Revenue, Department of the Treasury

Subchapter C—Miscellaneous Excise Taxes

[T. D. 5766]

PART 187—DENATURATION OF RUM

SUBMISSION AND APPROVAL OF SAMPLES OF DENATURANTS

1. Sections 187.53, 187.55 and 187.56 of Regulations 16 (26 CFR, Part 187) approved May 20, 1940, are amended and § 187.56a is added to such regulations, to read as follows:

§ 187.53 *Container to be sealed.* After taking the sample the storekeeper-gauger will securely close and seal the tank or package from which it was obtained, and no part of the contents of such tank or package may be used until the sample has been officially tested and approved, and report on Form 1472 of such test is received by the storekeeper-gauger in charge of a plant. (Secs. 3070, 3176, I. R. C.)

§ 187.55 *Shipment of samples to authorized chemist.* The samples of denaturants, after being securely packed and sealed, shall be sent to the most convenient authorized chemist for examination and report. District supervisors will furnish proprietors of denaturing bonded warehouses and storekeeper-gaugers with the names and addresses of authorized chemists. All expenses in connection with the forwarding and testing of samples must be borne by the proprietor. A report of each sample submitted by the storekeeper-gauger for analysis shall be prepared by him on Form 1472 "Report on Denaturants," in triplicate, and forwarded to the authorized chemist. (Secs. 3070, 3176, I. R. C.)

§ 187.56 *Report of analysis by the chemist.* Upon completion of the analysis of the denaturants, the authorized chemist shall make a report of his analysis on the Form 1472, in triplicate, received from the storekeeper-gauger, note his approval or disapproval of the samples thereon, and sign the same. One copy of the Form 1472 shall be returned to the storekeeper-gauger in charge of the denaturing bonded warehouse, one copy shall be forwarded to the district supervisor of the district in which the warehouse is located, and the remaining copy shall be transmitted to the Commissioner. (Secs. 3070, 3176, I. R. C.)

§ 187.56a *Retention of samples.* The authorized chemist must retain all samples of rum denaturants for a period of 30 days so that they will be available for reference. (Secs. 3070, 3176, I. R. C.)

2. These amendments are for the purpose of prescribing Form 1472 for use in connection with the submission and approval of samples of denaturants in lieu of Forms 1470 and 1472. The last sentence of § 187.56 prior to this amendment has been rewritten as § 187.56a.

3. It is found that compliance with the notice public rule-making procedure and effective date requirements of the Administrative Procedure Act is unnecessary in connection with the issuance of these regulations for the reason that the amendments merely simplify existing requirements.

4. This Treasury decision shall be effective immediately upon its publication in the FEDERAL REGISTER.

Whereas the conditions aforesaid have been satisfied; and it is expedient formally to declare the entry into force of the Occupation Statute;

Now, therefore, the Council of the Allied High Commission hereby declares that the Occupation Statute entered into force as from 21 September 1949.

Done at Bonn, Petersberg, on 21 September 1949.

A. FRANCOIS-PONCET,
French High Commissioner for Germany.
JOHN J. MCCLOY,
U. S. High Commissioner for Germany.
B. H. ROBERTSON,
U. K. High Commissioner for Germany.

TEXT OF OCCUPATION STATUTE PROMULGATED ON THE 12TH MAY 1949 BY THE MILITARY GOVERNORS AND COMMANDERS IN CHIEF OF THE WESTERN ZONES

In the exercise of the supreme authority which is retained by the Governments of France, the United States and the United Kingdom,

We, General Pierre Koenig, Military Governor and Commander-in-Chief of the French Zone of Germany,

General Lucius D. Clay, Military Governor and Commander-in-Chief of the United States Zone of Germany, and

General Sir Brian Hubert Robertson, Military Governor and Commander-in-Chief of the British Zone of Germany,

Do hereby jointly proclaim the following Occupation Statute:

1. During the period in which it is necessary that the occupation continue, the Governments of France, the United States and the United Kingdom desire and intend that the German people shall enjoy self-government to the maximum possible degree consistent with such occupation. The Federal State and the participating Laender shall have, subject only to the limitations in this Instrument, full legislative, executive and judicial powers in accordance with the Basic Law and with their respective constitutions.

2. In order to ensure the accomplishment of the basic purposes of the occupation, powers in the following fields are specifically reserved, including the right to request and verify information and statistics needed by the occupation authorities:

(a) Disarmament and demilitarization, including related fields of scientific research, prohibitions and restrictions on industry, and civil aviation;

(b) Controls in regard to the Ruhr, restitution, reparations, decartelization, deconcentration, non-discrimination in trade matters, foreign interests in Germany and claims against Germany;

(c) Foreign affairs, including international agreements made by or on behalf of Germany;

(d) Displaced persons and the admission of refugees;

(e) Protection, prestige, and security of Allied forces, dependents, employees and representatives, their immunities and satisfaction of occupation costs and their other requirements;

(f) Respect for the Basic Law and the Land constitutions;

(g) Control over foreign trade and exchange;

(h) Control over internal action, only to the minimum extent necessary to ensure use of funds, food and other supplies in such manner as to reduce to a minimum the need for external assistance to Germany;

(i) Control of the care and treatment in German prisons of persons charged before or sentenced by the courts or tribunals of the occupying Powers or occupation authorities; over the carrying out of sentences imposed on them; and over questions of amnesty, pardon or release in relation to them.

3. It is the hope and expectation of the Governments of France, the United States and the United Kingdom that the occupation authorities will not have occasion to take action in fields other than those specifically reserved above. The occupation authorities, however, reserve the right, acting under instructions of their Governments, to resume, in whole or in part, the exercise of full authority if they consider that to do so is essential to security or to preserve democratic government in Germany or in pursuance of the international obligations of their Governments. Before so doing they will formally advise the appropriate German authorities of their decision and of the reasons therefor.

4. The German Federal Government and the Governments of the Laender shall have the power, after due notification to the occupation authorities, to legislate and act in the fields reserved to these authorities, except as the occupation authorities otherwise specifically direct or as such legislation or action would be inconsistent with decisions or actions taken by the occupation authorities themselves.

5. Any amendment of the Basic Law will require the express approval of the occupation authorities before becoming effective. Land constitutions, amendments thereof, all other legislation, and any agreements made between the Federal State and foreign Governments, will become effective 21 days after its official receipt by the occupation authorities unless previously disapproved by them, provisionally or finally. The occupation authorities will not disapprove legislation unless in their opinion it is inconsistent with the Basic Law, a Land constitution, legislation or other directives of the occupation authorities themselves or the provisions of this Instrument, or unless it constitutes a grave threat to the basic purposes of the occupation.

6. Subject only to the requirements of their security, the occupation authorities guarantee that all agencies of the occupation will respect the civil rights of every person to be protected against arbitrary arrest, search or seizure; to be represented by counsel; to be admitted to bail as circumstances warrant; to communicate with relatives; and to have a fair and prompt trial.

7. Legislation of the occupation authorities enacted before the effective date of the Basic Law shall remain in force until repealed or amended by the occupation authorities in accordance with the following provisions:

(a) Legislation inconsistent with the foregoing will be repealed or amended to make it consistent herewith;

(b) Legislation based upon the reserved powers, referred to in paragraph 2 above will be codified;

(c) Legislation not referred to in (a) and (b) will be repealed by the occupation authorities on request from appropriate German authorities.

8. Any action shall be deemed to be the act of the occupation authorities under the powers herein reserved, and effective as such under this Instrument, when taken or evidenced in any manner provided by any agreement between them. The occupation authorities may in their discretion effectuate their decisions either directly or through instructions to the appropriate German authorities.

9. After 12 months and in any event within 18 months of the effective date of this Instrument the occupying Powers will undertake a review of its provisions in the light of experience with its operation and with a view to extending the jurisdiction of the German authorities in the legislative, executive and judicial fields.

Publication of this notice is not intended to and does not in any way add to or detract from the presently existing legal force and effect of the matter quoted above.

Director, Bureau of German Affairs.

INDUSTRIAL, LITERARY AND ARTISTIC PROPERTY RIGHTS OF FOREIGN NATIONS AND NATIONALS

The following proclamations and regulations issued by the Allied High Commission for Germany and by the United States High Commissioner for Germany are deemed to be of interest to certain United States citizens as having legal effect upon them or their property.

[Law No. 8]

INDUSTRIAL, LITERARY AND ARTISTIC PROPERTY RIGHTS OF FOREIGN NATIONS AND NATIONALS

The Council of The Allied High Commission enacts as follows:

ARTICLE 1

The industrial, literary and artistic property rights in Germany of foreign nations and foreign nationals which have been impaired by the existence of a state of war or as a result of German war legislation shall be restored in the territory of the Federal Republic in accordance with this law.

ARTICLE 2

Upon request, filed without fee with the Patent Officer prior to 3 October 1950, any industrial, literary or artistic property rights in Germany owned by a foreign nation or foreign national at the commencement of or during the state of war between Germany and the foreign nation concerned which were transferred, seized, requisitioned, revoked or otherwise impaired by war measures, whether legislative, judicial or administrative, shall be restored by the Patent Office, without fee or penalty, to such foreign nation or foreign national or his legal successor: *Provided, however,* That this Article shall not affect any petition which may have been filed under United States Military Government Law No. 59 or British Military Government Law No. 59 or any judgment, decision or order which has been or may be rendered or made under such laws. A decision of the Patent Office denying any such request shall be subject to appeal to the Occupation Authorities in such manner as may be prescribed in regulations issued by them.

ARTICLE 3

Prior to 3 October 1950, a foreign nation or foreign national owning industrial, literary or artistic property rights in Germany at the commencement of or during the state of war between Germany and the foreign nation concerned may accomplish, without incurring restoration fees or other penalty, all acts which are necessary for the obtaining or preserving in the territory of the Federal Republic of rights in industrial, literary and artistic property which were not performed owing to the existence of the state of war or the Military Occupation of Germany. Such acts shall have the same effect as if they had been done at the proper time. Where any such act would have involved the payment of money, such payment shall be considered to have been made.

ARTICLE 4

Upon request, filed without fee with the Patent Office prior to 3 October 1950, any application to the former German Patent Office (Reichspatentamt) for the granting of industrial property rights filed by or on behalf of any foreign nation or foreign national shall be reinstated, without restoration fees or other penalty, in the territory of the Federal Republic by the Patent Office in any case in which the application was pending, had been filed or had been rejected during the period between the date of the commencement of the state of war between Germany and the foreign nation concerned and 30 September 1949, both dates inclusive. Any such request shall be made by or on behalf of the original applicant or his legal successor. In the case of any application for a patent which has been published and which is reinstated by virtue of this Article, the protection afforded by publication in accordance with Article 30 of the Reich Patent Law of 5 May 1936, as amended, shall be deemed to have been effective within the territory of the Federal Republic as from 1 October 1949.

ARTICLE 5

Upon request, filed without fee with the Patent Office prior to 3 October 1950, the Patent Office shall extend, without additional fees or other penalty, in the territory of the Federal Republic the duration of any industrial, literary or artistic property right in Germany owned by a foreign nation or foreign national at the date of commencement of or during the state of war between Germany and the foreign nation concerned, or granted upon an application reinstated pursuant to Article 4 of this law. Such period of extension shall correspond to the period between such date of commencement of the state of war, or such later date on which such right came into existence, and 30 September 1949, both dates inclusive, but shall not exceed the unexpired period of the duration of any right which existed at such date of commencement of the state of war. Any such request shall be made by or on behalf of the original owner of the right or his legal successor.

ARTICLE 6

1. Any foreign nation or foreign national who, prior to 1 October 1949 shall have duly made first application in any country other than Germany for a patent or for the registration of a utility model (Gebrauchsmuster) not earlier than twelve months before the commencement of the state of war between Germany and the foreign nation concerned or for the registration of an industrial design or model or trade mark not earlier than six months before the date of commencement of such state of war, may apply, prior to 3 October 1950, to the Patent Office for corresponding rights in the territory of the Federal Republic and shall be entitled to rights of priority based on such first application.

2. The provisions of paragraph 1 of this Article shall apply only to a foreign nation and the nationals of a foreign nation which officially notifies the Patent Office prior to 1 April 1950 that:

(a) It permits the filing of applications for industrial property rights by German nationals,

(b) It accords rights of priority at least as great as those specified by the Convention in respect of applications filed with a Filing Office and application filed with the Patent Office, and

(c) If German nationals were not permitted to file applications in such foreign nation prior to 1 April 1949, it permits the filing of applications by German nationals and accords the same priority as would have been obtained if a filing had taken place within one year of the filing with a Filing Office or the Patent Office.

ARTICLE 7

1. Natural or juristic persons resident of or carrying on business in the territory of the Federal Republic who, between 1 September 1939 and 30 September 1949, both dates inclusive, bona fide acquired industrial, literary or artistic property rights, other than a trade mark, which conflict with rights restored under this Law or with rights obtained with the priority provided thereunder, or were bona fide manufacturing, publishing, reproducing, using or selling the subject matter of such industrial, literary or artistic property rights, other than a trade mark, and have not disposed or been deprived of such rights prior to 1 October 1949, shall be permitted, without liability for infringement, to continue to exercise such rights and to continue or resume such manufacture, publication, reproduction, use or sale, in accordance with a non-exclusive license granted by the holder of the rights restored by this Law or obtained with the priority given thereunder, on terms to be mutually agreed. If agreement on the terms of such non-exclusive license is not reached, a prospective party to the license agreement, at any time prior to 1 April 1951, may request the Grand Senate (Grosser Senat) of the Patent Office to fix such terms. Upon such request the Grand Senate, not later than 1 October 1951, shall fix the terms of such license after giving an opportunity for the prospective parties to the license agreement to be heard.

2. The Grand Senate of the Patent Office shall establish rules of procedure with respect to the hearings provided for in paragraph 1 above.

3. A decision of the Grand Senate shall be subject to appeal to the Occupation Authorities in such manner as may be prescribed in regulations issued by them.

ARTICLE 8

Any foreign nation or foreign national or the legal successor of a foreign national, may, not later than 1 October 1951, institute proceedings against those natural or juristic persons who are alleged to have infringed the industrial, literary or artistic property rights of such foreign nation or foreign national either

(a) Between the date of commencement of the state of war between Germany and the foreign nation concerned and 30 September 1949, both dates inclusive, provided that proceedings shall not be instituted in respect of any bona fide exercise or use of such rights, or

(b) Prior to such date of commencement, provided that the proceedings in such case could have been instituted then under the German law and a statute of limitations could not have been pleaded as a bar or defense thereto.

ARTICLE 9

A period corresponding to that between the date of commencement of the state of war between Germany and a foreign nation and 1 April 1951, both dates inclusive, shall be excluded in determining the time within which the working of a patent or utility model or the use of a design or trade mark owned by such foreign nation or its nationals is required by law.

ARTICLE 10

Foreign nations and foreign nationals shall also be entitled to such benefits with respect to industrial, literary and artistic property rights as are granted under German law to German nationals.

ARTICLE 11

Except as otherwise provided, the competent German courts shall have jurisdiction in all matters concerning the application of this Law.

ARTICLE 12

Subject to the provisions of Articles 2 and 7, regulations to implement the provisions of this law shall be issued by the appropriate Authority of the Federal Republic of Germany. Such regulations shall be legislation under paragraph 5 of the Occupation Statute.

ARTICLE 13

1. This law shall prevail over any German legislation which is inconsistent therewith.

WISCONSIN PUBLIC SERVICE CORP.

ORDER PERMITTING DECLARATION TO BECOME EFFECTIVE

At a regular session of the Securities and Exchange Commission, held at its office in the city of Washington, D. C., on the 2d day of December 1949.

Wisconsin Public Service Corporation ("Wisconsin"), a public utility subsidiary of Standard Gas and Electric Company, a registered holding company, has filed a declaration pursuant to the Public Utility Holding Company Act of 1935 ("act"), particularly sections 6 (a) and 7 thereof, with respect to the following proposed transactions:

Wisconsin proposes to adopt an amendment to its Articles of Incorporation which will provide, in effect, that unless the capital represented by its Common Stock and surplus accounts is 25% or more of the total of its Capital Stock and surplus accounts and debt maturing more than one year after date of issue, dividends (other than dividends payable in Common Stock) or distributions on, or acquisitions for value of, Common Stock may not exceed 75% of net income applicable to the Common Stock for a preceding twelve month period; and if less than 20% may not exceed 50% of such net income.

For the purpose of such computations of debt and surplus, one-third of the outstanding bonds of Wisconsin River Power Company ("River") is treated as debt capital of Wisconsin, and so much of River's surplus as is applicable to the portion of River's outstanding stock owned by Wisconsin is treated as surplus of Wisconsin. River, a public utility subsidiary of Wisconsin, is engaged in the generation and sale, at wholesale, of electric energy. At the present time Wisconsin owns approximately one-third of River's outstanding stock and is obligated and entitled to purchase one-third of the energy generated by River.

Wisconsin states that no regulatory body other than this Commission has jurisdiction over the proposed transactions.

The declaration having been filed on November 9, 1949, and notice of said filing having been duly given in the form and manner prescribed by Rule U-23 promulgated under the act, and the Commission not having received a request for hearing with respect to said declaration within the period specified in said notice, or otherwise, and not having ordered a hearing thereon; and

The Commission finding with respect to said declaration that the requirements of the applicable provisions of the act and the rules promulgated thereunder are satisfied, and the Commission deeming it appropriate in the public interest and in the interest of investors and consumers that said declaration be permitted to become effective forthwith:

It is ordered, Pursuant to Rule U-23 and the applicable provisions of the act, and subject to the terms and conditions prescribed by Rule U-24, that the declaration be, and hereby is, permitted to become effective forthwith.

By the Commission.

CENTRAL VERMONT PUBLIC SERVICE CORP. ET AL.

NOTICE OF FILING

At a regular session of the Securities and Exchange Commission held at its office in the city of Washington, D. C., on the 9th day of December A. D. 1949.

In the matter of Central Vermont Public Service Corporation, Connecticut Valley Electric Company, Inc., New England Fuel Service Company, Northern New England Company, File No. 70-2075.

Notice is hereby given that an application-declaration and amendments thereto have been filed with this Commission, pursuant to the Public Utility Holding Company Act of 1935, by Central Vermont Public Service Corporation ("Central Vermont"), Connecticut Valley Electric Company, Inc. ("Connecticut Valley"), New England Public Service Company ("NEPSCO"), and Northern New England Company ("Northern"). Central Vermont, a Vermont corporation, is a public-utility subsidiary of NEPSCO, a registered holding company which in turn is a subsidiary of Northern, also a registered holding company. Connecticut Valley is a newly organized New Hampshire corporation formed for the purpose of acquiring from Central Vermont certain properties of the latter in the manner and for the purposes described below. Applicants have designated as applicable to the proposed transactions sections 6, 7, 9, 10, 12 and 13 of the act and Rules U-42 to U-45, U-87, U-90 and U-91 thereunder.

Notice is further given that any interested person may, not later than December 26, 1949, at 5:30 p. m., e. s. t., request the Commission in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request and the issues, if any, of fact or law raised by said application proposed to be controverted, or may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C. At any time after 5:30 p. m., e. s. t., December 26, 1949, said application, as amended, may be granted as provided in Rule U-23 of the rules and regulations under the act, or the Commission may exempt such transactions as provided in Rules U-20 (a) and U-100 thereof.

All interested persons are referred to said application-declaration, as amended, which is on file in the offices of this Commission, for a statement of the transactions therein proposed, which are summarized as follows:

Central Vermont proposes to acquire all of the outstanding stock of Connecticut Valley, consisting of 40 shares of common stock, $25 par value, from Albert A. Cree, the president of Central Vermont and Connecticut Valley, at $25 per share, the price at which Cree acquired the stock upon the organization of the company in December 1948.

Central Vermont and Connecticut Valley propose thereupon to transfer to Connecticut Valley the properties of Central Vermont located in the State of New Hampshire with which Central Vermont carries on an intrastate electric utility business in that state, as well as the franchises and other assets pertaining thereto, in exchange for the issuance by Connecticut Valley to Central Vermont of 13,960 shares of common stock, $25 par value, plus First Mortgage 4% Bonds, maturing 30 years from date of issue, in an amount estimated by the applicants not to exceed $480,000 and approximately equal to 60% of the current fair value of the property to be released from the indenture securing Central Vermont's bonds.

The application states that such indenture provides that any property which is located in New Hampshire shall be released from the lien of the indenture upon the deposit with the trustee thereunder of cash and/or purchase money obligations received for such property equal to at least 60% of the current fair value thereof.

The application further states that, contemporaneously with the transfer of the properties referred to above, Central Vermont and Connecticut Valley will enter into agreements whereby Central Vermont will furnish certain engineering, accounting and other services to Connecticut Valley at cost in accordance with Rule U-90 under the act and will also supply electricity to Connecticut Valley.

The application further states that the transactions summarized above are proposed for the purpose of complying with an order of the Public Service Commission of New Hampshire of October 23, 1929, as amended July 31, 1936, requiring the conveyance to a New Hampshire corporation of Central Vermont's New Hampshire properties, and that the proposed transactions have been authorized by the Public Service Commission of New Hampshire by order of October 7, 1949, and are not subject to the jurisdiction of the Public Service Commission of Vermont.

Applicants request that the Commission's order herein be effective upon issuance.

By the Commission.

Secretary.
